

Remember the last time you walked into a space that just ... worked?

The Young family has been in business for 69 years. Now in our fourth generation of family ownership and leadership, we strive each day to work in harmony with our clients, our team, and our community. Our focus is creating workspaces that work for the business, not what looks best in our portfolio. We are dedicated to our culture of growth, learning, and corporate responsibility in our pursuit of being the benchmark of all premier commercial interiors' organizations. We are unique in that we provide design, interiors, furniture, flooring, and audio/visual solutions all under one roof, and with a relentless commitment to quality, customer service and our Core Values.

So how do we do it?

All Under One Roof

We have all the elements of the modern work environment under one roof — from design and furniture to flooring, and technology. Integrating all of that know-how is what makes our approach so different and so valuable.

A Focus On You

While we stay up-to-date on the latest research and design trends, what's trendy isn't necessarily what you need. We focus on creating workspaces that work for you, not what's going to look the flashiest in our portfolio.

Our People

We have an unmatched range of skill sets and technical know-how, all on one team. Our talented team curates the best options for your space to ensure it will support your people, what they do, and how they share information.

Vision Statement

Young Office will be the benchmark of all furniture providers. We will achieve the highest standard of customer service while partnering with our clients to create progressive and productive environment solutions.

WHY

Our business exists to deliver the foremost customer experience through our ever-lasting core values.

HOW

We look at space differently and we translate the needs of our clients into interior solutions that drive performance.

WHAT

We create workspaces that inspire, motivate & engage.

**Family
Owned &
Operated

1953**

Our Core Values

Add Value	Build Relationships	Act with Integrity	Be Responsible	Earn Loyalty
We will add value to all aspects of our business and our customers’.	We will strive to grow relationships with our internal and external customers.	We will always do what is right by being honest and forthright in our dealings with others.	We will continue to promote safe and healthy environments for the communities we serve with the efficient use of all our resources.	We will earn the respect and loyalty of our employees and customers every day.

A workplace for everyone.

Equity and inclusion through our ever-lasting core values.

Young Office is represented by a diverse group of industry professionals. We recognize it is our individual experiences that add value to everything we do together. We build authentic relationships by fostering a spirit of personal integrity and responsibility to one another. We are committed to earning the loyalty of our team members and customers every day. We do this because we know creating a workplace is more than design and furniture; it is people, ideas, and culture that bring a space to life.

Young Office is committed to supporting our communities across the Carolinas. We are actively engaged with public leaders, non-profit organizations, and charitable institutions across the Upstate and Western North Carolina. Our Team Members help shape our mission every year through Company program recommendations and their own volunteerism in their personal time. Young Office's culture of giving back has allowed us to positively impact numerous groups across the areas of education, health, human services, community development, and veteran support, just to name a few!

The Thomas R. Young, III
Memorial Scholarship

Every year we strive to become more aware, and more responsible with our commitment to the environment around us. Young Office promotes energy effectiveness and investments, waste control, and disciplined shipping practices in all we do. We have made upgrades to our facilities by transitioning to LED lighting and motion sensors in all our office and warehouse spaces. We have donated, this year, nearly ten thousand pounds of furniture, and recycled fifty thousand pounds of metal that would have otherwise ended up in landfills. We have made a substantial promise to recycle all cardboard waste in our warehouse and have processed over 144 tons of this material alone. Being good stewards of resources is inherent in every aspect of our business and culture.

Work in harmony.
